WTCC Core Team meeting

In attendance: ET, Jeremiah G., Nicholas G., Lars K., Tyler K., Lois W., Teal W.

- For CARES relief, Jerad Stack has strongly recommended an additional candidate, who has applied belatedly. LW said he was a researcher for the Moonshot Project, and his report was unusually comprehensive.
- Lars suggested choosing the candidate for the community manager position immediately at the present meeting and choosing the others after ET completes the other interviews. ET favors Jason Mincer who already has contacts in the Health Department and the Governor's office from his previous job. There was discussion about whether to hire 2 people for each position, in case one gets another job and resigns then there would be legacy.
- ET has already arranged to interview another candidate tomorrow morning, and will attempt to interview the candidate recommended by Jared.
- The team unanimously agreed to accept Dawn Scott for the community manager position. There was discussion of hiring a second person for that role, if possible, to handle social media and PR.
- ET proposed hiring Jason Mincer immediately for Moonshot, with the possibility of hiring the candidate recommended by Jerad as a second Moonshot person if we are authorized to hire a third employee. The team agreed.
- Lars proposed that Jason and Dawn should be involved in helping to choose the additional candidates, as they would attend Monday's core team meeting.
- Agenda at meeting with Renny McKay tomorrow at 11: Contact tracing and help with cheek swab testing.

Next meeting: Monday June 22, 6 PM
